

BlackCat Transit: The Nation's Preferred Grant Management Software for Transportation

Designed specifically for State Departments of Transportation (DOTs), BlackCat Transit simplifies every stage of the grant management lifecycle.

It efficiently handles data collection, spend-down tracking, and contract management, all while incorporating industry best practices. With flexible customization options, the system adapts to meet evolving needs. Experience seamless grant management with BlackCat Transit.

Streamline & Standardize Your Grant Management Processes

Key Features:

- **Full Life Cycle Grant Making:** Streamlines the entire grant process, from application to closeout, for State Departments of Transportation (DOTs).
- **Ridership and Budget Reporting:** Offers comprehensive tools for tracking ridership statistics and budget performance to support informed decision-making.
- **Transit Asset and Inventory Management:** Manages all transit assets, ensuring compliance with federal requirements and efficient lifecycle tracking.
- **Oversight and Compliance:** Provides features for compliance management and document retention, ensuring adherence to regulatory standards.
- **Procurement Monitoring:** Tracks procurement activities related to grant funding, ensuring alignment with established guidelines.
- **State Safety Oversight (SSO) Reporting** - Enables users to report and manage safety data for Rail Fixed Guideway Transit Systems in compliance with FTA regulations, facilitating timely notifications, corrective actions, and comprehensive oversight reviews.
- **DBE Reporting:** Simplifies Disadvantaged Business Enterprise (DBE) participation reporting for compliance with federal regulations.
- **NDT Reporting:** Facilitates National Transit Database (NTD) reporting to ensure accurate submission of required data to federal agencies.
- And More...

BlackCat Transit

Effortlessly manage federal and state transit initiatives using B2Gnow, the leading grant management solution provider for transportation agencies. For more than 25 years, our grant management system has efficiently streamlined grant and fund administration for government transportation agencies, catering to both state and federal organizations.

Why BlackCat?

- ✓ **Manage the Entire Grant Lifecycle:** Experience a flexible and robust grant management system that is easy to configure and implement, ensuring seamless handling of every stage of the grant lifecycle—from application to closeout.
- ✓ **Unlock Automated Compliance:** Simplify compliance with automated tracking and reporting features that minimize manual errors, ensuring adherence to ever-changing federal, state, and local regulations.
- ✓ **Tailored for State DOTs:** Built on industry best practices, BlackCat delivers the essential functionality needed by state transit departments to effectively manage grants, assets, compliance, and other critical activities.
- ✓ **Maximize Community Impact:** Shift your focus from paperwork to impactful projects, empowering you to fund initiatives that positively affect your community.
- ✓ **Enhance Visibility for Stakeholders:** Effortlessly analyze, track, and share grant data at any stage, ensuring transparent communication with all essential stakeholders.
- ✓ **Standardize Grant Management Processes:** Customize the software to oversee and optimize diverse grant programs, meeting the unique operational and administrative needs of various granting groups.

About B2Gnow

B2Gnow delivers leading software solutions that promote accountability, transparency, and compliance in public and private contracting. For over 25 years, agencies across North America, including federal, state, local, education, and Fortune 500 organizations have relied on B2Gnow to manage complex compliance programs. Its integrated platform includes B2Gnow for vendor management, certification, goal tracking, and DBE/MBE/SBE/WBE compliance reporting, eComply for prevailing wage and workforce reporting, and BlackCat for grant management and project oversight. Purpose-built for infrastructure projects, B2Gnow's technology enhances transparency, reduces risk, and strengthens communities. Learn more at www.b2gnow.com.
